Helicocoris tyrannus THOMSON has been recorded from Myanmar (Tenasserim), the Malay Peninsula, Sumatra and Java (BALTHASAR, 1963). Through the courtesy of Dr. Y. CAMBEFORT, we have examined a specimen of this species from Borneo preserved in the collection of MNHN, Paris. This is the first record of the genus *Helicocoris* from Borneo as well as that of *H. tyrannus*. The collection data are as follows: 1 ex., Mitten Borneo, 21–X–1925, H. F. SIEDERS leg., R. PAULIAN det.
