## Replacement of a Preoccupied Name of a *Strongylium* Species

**Kimio MASUMOTO**

Institute of Human Living Sciences, Otsuma Women's University,  
12 Sanbancho, Chiyoda-ku, Tokyo, 102–8357 Japan

MASUMOTO (1997) described *Strongylium taoi* from Sulawesi, inadvertently overlooking *S. taoi* MASUMOTO, 1996, originally described from northern Thailand. Since the former became a junior homonym of the latter, a new replacement name is proposed as follows:

***Strongylium minorui* nom. nov.**

*Strongylium taoi* MASUMOTO, 1997, *Elytra, Tokyo*, **25**: 293 [nec MASUMOTO, 1996].
