Cephennodes (Fusionodes) graeseri was described by REITTER (1887) from Russian Far East. Later, JAŁOSZYŃSKI *et al.* (2005) recorded the present species from Korea (Chejudo Is.). In 2012, I collected one male specimen of *C. (F.) graeseri* in Tsushima Is., Kyushu, Japan. In this short report, I record the species firstly from Japan.
