

## A New Record of *Oxytelus almorensis* CAMERON, 1932 (Coleoptera, Staphylinidae, Oxytelinae) from Taiwan

Yasuhiko HAYASHI

Suimeidai 3-1-73, Kawanishi-shi, Hyôgo, 666-0116 Japan

Although *Oxytelus almorensis* has been known from Northwest India and Pakistan, there are very few distributional records. Under the Taiwanese staphylinid study, I found this species from Taiwan in my cabinet. The specimens from Taiwan are somewhat different in general appearance judging from the CAMERON's original description, but the secondary sexual features are well coincided with its description and the figure.

### *Oxytelus almorensis* CAMERON, 1932

*Oxytelus (Tanyocraelus) almorensis* CAMERON, 1932: 221. Type locality: Almora, Dhauli Ganga, alt. 9,250 feet.

ABDULLAH & QADRI, 1970: 122.

Other references see HERMAN, 2001: 1419.

*Specimens examined.* 2 exs., Lishan, Taiwan, 3.VII.1972, Y. MAEDA leg.; 2 exs., Nanshanchi, Taiwan, 9.III.1970, T. KOBAYASHI leg.; 2 exs., Funchiifo, Taiwan, 17.VIII.1969, Y. MAEDA leg.; 1 ex., ditto, 29.IV.1971, Y. HAYASHI leg.; 1 ex., Sungkang, Taiwan, 6.VIII.1969, T. KOBAYASHI leg.; 1 ex., ditto, 21.VIII.1969, T. KOBAYASHI leg.; 1 ex., ditto, 30.VI.1971, Y. MAEDA leg.; 1 ex., Kenting Park, Taiwan, 13.VIII.1969, Y. MAEDA leg.
