

A New Record of *Ochthebius* (*Enicocerus*) *nakanei* (Coleoptera, Hydraenidae) from Shikoku, Southwest Japan

Kazuki SUGAYA

Entomological Laboratory, Faculty of Agriculture, Ehime University,
Tarumi 3-5-7, Matsuyama, 790-8566 Japan

Ochthebius (*Enicocerus*) *nakanei* MATSUI, 1986 has hitherto been recorded from Honshu and Kyushu (MATSUI, 1986; JÄCH, 1998; YOSHITOMI *et al.*, 2000).

In the spring of 2009, I obtained this species from a small stream lying on Shikoku Karst. In this short paper, I record it for the first time from Shikoku as below.

Specimen examined. 1 ex., Matsuba-gawa River at Funato, Tsuno-chô, Kôchi Pref., Central Shikoku, Southwest Japan, 24-V-2009, Kazuki SUGAYA leg.

I wish to express my hearty thanks to Dr. Hiroyuki YOSHITOMI, Ehime University Museum, for his kind advice and encouragement to publish this short report.
